

The 80/20 JAPANESE Guide To Japanese Verb Tenses & Forms

Verb Structure & Types

Ru-Verbs (called "add-on verbs" in 80/20 Japanese)
 Stem is always the same. Dictionary form (informal present/future tense) is always "stem + ru", eg. eat = **taberu**.

U-verbs ("vowel-changing verbs")
 Last sound in stem changes to fit verb ending.
 This sound is taken from same line in syllabary (hiragana chart) for all tenses for a given verb. See examples below.

Notation: stem(X) = stem with X vowel sound variant.

Vowel (X)	Example tense/form with stem(X)	Examples		
		drink	write	buy
a	Negative informal = stem(a) + nai	nom <u>a</u> nai	kak <u>a</u> nai	kaw <u>a</u> nai*
i	Polite present/future = stem(i) + masu	nom <u>i</u> masu	kak <u>i</u> masu	kaw <u>i</u> masu
u	Dictionary = stem(u)	nom <u>u</u>	kak <u>u</u>	kaw <u>u</u>
e	Polite potential = stem(e) + masu	nom <u>e</u> masu	kak <u>e</u> masu	kaw <u>e</u> masu
o	Let's... = stem(o)	nom <u>o</u>	kak <u>o</u>	kaw <u>o</u>
- (none)	Informal past = stem(-) + [various]	nonda	kaita	katta

*If last sound in stem is from a-line (a,i,u,e,o), stem(a) variant uses "wa".

Irregular verbs

Don't fit either of above types. Only three verbs in this category: suru/shimasu (do), kuru/kimasu (come), iku/ikimasu (go).

Verb Tense/Form Selection and Usage

Japanese verbs are conjugated based on two things - function (tense/form) and politeness (polite or informal).

Choosing the appropriate level of politeness	
Polite	Informal
<ul style="list-style-type: none"> People older or more senior (eg. boss, even if a younger age) Unfamiliar people Clients, customers etc. <p>If in doubt, be polite!</p>	<ul style="list-style-type: none"> Familiar people, such as family and close friends (incl. close older people) People younger or more junior (eg. subordinates, lower-rank colleagues) Children (often even if unfamiliar)

Choosing the appropriate verb tense/form	
Tense/form	When to use it
Present/Future	Actions that start in the future; Recurring/habitual actions
Past	Actions that have completed (incl. recurring/habitual actions that have ceased)
Negative forms	Same as for equivalent positive form, but with negative meaning, ie. "will not __", "did not __", etc.
Let's...	To say, "Let's do...". Add "ka" for question: "Shall we...?".
Potential	To say someone can do/is capable of doing something.
I want to...	To say, "I want to...". Not used for, "I want [something]". Change "tai" to "takunai" to make negative (don't want).
Te-Form	Many uses, including (but not limited to): ~te + iru/imasu: "Is doing". Actions currently in progress. ~te + ita/imashita: "Was doing". Actions that were in progress at a specific time in the past (eg. At 2pm, I was ...) ~te + kudasai: "Please ..." (eg. Please eat = tabete kudasai) ~te + [other verb/phrase]: Action followed by another action. Can be stacked for multiple subsequent actions.
